## Artist Biography

### Richard Woods (b. 1966)

Richard Woods graduated from the Slade School of Art in 1990. His architectural interventions are chiefly concerned with the re-surfacing of existing structures, and they propose an absurd twist on the cult of home improvement and DIY aesthetics. Over the past few years, he has designed a sensational interior for the Comme des Garçons' flagship store in Osaka, orchestrated the mock Tudor overhaul of a private residence in New York and transformed the interior of Cary Grant's former Hollywood residence for its new owner, Jeffrey Deitch. In 2003, his re-paving of a cloistered courtyard was the centrepiece of The Henry Moore Foundation's exhibition at the 50th International Venice Biennale of Art. He lives and works in London.
